

# New Aluminum Aerosol Can ø25 20 mm Opening

Our aluminum container is ideal for the pharmaceutical, cosmetic and general aerosol industries for pocket versions of traditional formats. For example, portfolio versions of hand sanitizers that help prevent the spread of COVID-19 or uses for high value products that require a container that stands out in relation to other raw materials.

## We offer the following option

- 25 x 97 overflow capacity of 45 mL

For other formats and inquires please contact [info@condensa.cl](mailto:info@condensa.cl) or your sales representative

## Condensa's Value Proposition:

- We offer aerosol containers – decorated, plain white, or brushed aluminum.
- We offer color matching and graphics development support to enhance customer's results.
- We offer product development and door-to-door logistics services.
